Recent BSc. Computer Science graduate specializing in frontend development, with hands-on experience building responsive web applications using React, JavaScript, and MongoDB. Passionate about creating intuitive user interfaces and collaborating on innovative tech projects.

EDUCATION

Undergraduate

BSc. Hons Computer Science

Herald college Kathmandu | Aug 2021 - March 2024

- o Graduated with a focus on **frontend development, databases, and software engineering.**
- o Key coursework: Web Development, Data Structures, Algorithms, AI.
- o Final Year Project: Developed a Resume Builder Website using the MERN stack (MongoDB, Express.js, React, Node.js).
  - o Features: User authentication, pre-built templates, dynamic PDF generation.

+2 (School leaving Certificate)

Kathmandu Bernhardt School | Jun 2019 – Mar 2021

- o Major: Computer Science
- o Key subjects: Computer Science, Mathematics.

PROJECTS

Weather App

I have developed a weather app where we can view essential weather information, including wind speed and direction, humidity levels, weather conditions, and temperature of the searched city and forecast weather for 5 days.
Technologies used: HTML, CSS, JavaScript, Open Weather API
https://weather-app-gilt-seven-83.vercel.app/

Resume Builder Website

In this project, I created a website where users can craft their resumes using pre-built templates, helping them to build visually appealing resumes.
Technologies used: Mern Stack, Tailwind CSS
https://github.com/rabiiiii18/craftMyCvFrontend

Food Recipe Website

Developed a dynamic and user-friendly food recipe website, allowing users to explore, search, and filter various recipes. The platform features a clean UI, responsive design, and an intuitive layout for enhanced user experience.
Technologies used: React, Tailwind CSS, Framer Motion
https://mero-khana.vercel.app/

TRAINING /CERTIFICATIONS

Frontend Development with React

Skill Shikshya | 9th March 2025

SKILLS

- o Programming Skills: HTML, CSS, JavaScript, React, C language, MongoDB, Tailwind CSS, GitHub
- o Soft Skills: Communication, Problem solving, Critical Thinking
- o Tools & Software Proficiency: Photoshop, Figma
